

Terms of Reference: ISO MASS Terminology NFAS mirror group

NFAS-ISO23860

Participants:

- Anyone with an interest in terminology for MASS

Premises:

- SIG works according to consensus principle: all to agree on guidelines etc. if not, make note that it is a suggestion
- The actual standardisation work is done through ISO mechanisms, the SIG will only provide input to this work on behalf of NFAS

Constitution and start up

- The SIG is managed by the project leader in ISO TC8, ØJ Rødseth
- The SIG works mainly through emails

Initial list of tasks.

- Provide inputs and comments to ISO 23860 development work
- Will contribute to Norwegian comments on all voting
